AUSTRALIAN EDUCATION TOUR 2026

A Smart and Simplified Approach to Direct Composite Restorations

Join Dr. Rafael Calixto for an intensive, **one-day hands-on** course designed to simplify and elevate your direct composite workflow. Don't miss a rare opportunity to learn **hands-on** from a globally respected educator.

Course Overview

Direct composite restorations are fundamental in modern dentistry - yet achieving predictable, aesthetics results can be challenging without a clear system.

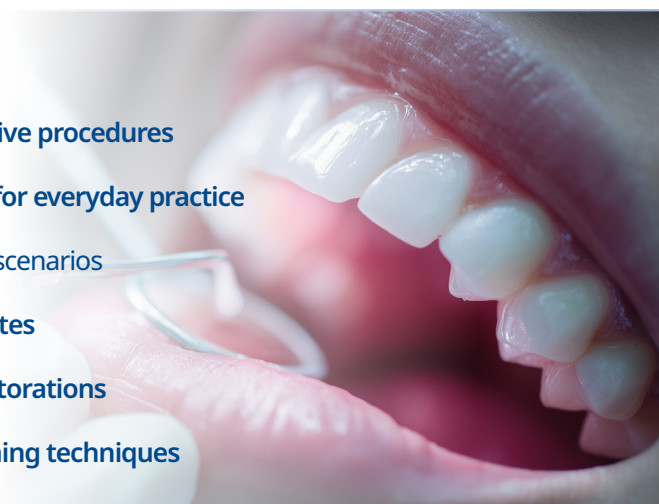

A practical, decision-based approach to anterior & posterior restorations.

Evidence-based theory, live demonstrations & hands-on training.

Learning Objectives

- ✓ Make **confident**, informed decisions during direct **restorative procedures**
- ✓ Understand colour concepts and simplify **shade selection for everyday practice**
- ✓ Apply **effective layering protocols** across different clinical scenarios
- ✓ Use **conservative strategies** to reliably mask dark substrates
- ✓ Implement **practical techniques** for efficient **posterior restorations**
- ✓ Execute **predictable veneer layering, finishing, and polishing techniques**
