

THE ART OF PRECISE PLACEMENT

It is self-limiting in its depth of etch (average depth of 1.9 μm with 15-second etch), creating an etch pattern that adhesives can penetrate for increased bond strength and reduced sensitivity.

**Buy 2 Ultra-Etch IndiSpense Refill / Kit,
Get 1 FREE Ultra-Etch IndiSpense Refill**

Ultra-Etch etchant's ideal viscosity facilitates precise placement and superior control.

Clinical experience and FE-SEM evaluations show that 15 seconds etch time on both dentin and cut enamel provides optimal condition of both tissues.

PEAK™

UNIVERSAL ADHESIVE SYSTEM

THE GOLD STANDARD IN ADHESIVE DENTISTRY

**Buy 1 Peak 4ML Bottle,
Get 1 Peak 4ML Bottle FREE**

Peak Universal Bond adhesive's advanced formula secures a strong and complete bond resulting in durable, long-lasting restorations with less post-op sensitivity.

- Bonds to dentin, enamel, porcelain, metal, composite, and zirconia
- Contains 0.2% chlorhexidine to help ensure long-term bond strength

Impressive Flowability, High Strength

PermaFlo™ flowable composite is formulated to offer the optimum level of thixotropy. Cover the wide range of anterior and posterior restorations in Classes I-V with total confidence.

- High fill and high flow are ideal for the super-adaptive initial layer
- 68% filled for high compressive strength
- Radiopaque for clarity in radiograph diagnosis
- Five tooth-colored shade choices for beautiful esthetics
- **PermaFlo Pink** composite features a unique masking ability that provides an attractive solution for prevalent gingival recession.

FLOW DISTANCE						

A test of light-cured flowable composites shows that even with one of the highest fill rate in its class,

Opalescence
Tooth Whitening *go*™

Powerful, Professional
Whitening to Go

No impressions, no models, no lab time, just ready-to-wear trays. Perfect as an alternative to conventional products or a follow-up to in-office whitening

Opalescence™
whitening toothpaste

Professional whitening toothpaste that does more—removes surface stains, strengthens teeth, protects enamel, and helps prevent caries. Safe for daily use with superior fluoride release and uptake.
