FORMA™ Zirconia Nano-Hybrid Composite
5 x 4gm syringes

- Natural Fluorescence
- Simple Handling and Polishability
- Smooth and easy to sculpt

DR. NEWTON FAHLE

FORMA™ composite offers a wide range of layering options to solve from the simplest to the most polychromatic cases, and its consistency allows precise modeling of each layer.

DR. RAFAEL CALIXTO

FORMA™ composite allows management of various opacities to reproduce different dental characteristics, both in simple and advanced restorations.

DR. RAFAEL BEOLCHI

FORMA™ composite demonstrates a working consistency that facilitates both the sculpting of anatomical details in posterior teeth and control over the thickness of the layers of resin in anterior teeth, essential for aesthetic restorations.

**Perfect Finish.
Every Restoration.
Less Time.**

15% off the complete Jiffy polishing range — composites, ceramics, and single-use.

**15%
OFF!**

*Applicable to the whole range of Jiffy™

**Jiffy One Single-Use Polishers
Open. Polish. Discard.**

- No sterilisation. No reprocessing. Zero extra steps.
- High-gloss finish on any composite — fast
- Disposable pack — saves time and infection control cost

**Jiffy Spin Shaping and Finishing Disks
Gets Where Other Disks Can't.**

- Ultra-thin profile reaches tight interproximal spaces easily
- Coarse to fine in one kit — no need to swap systems mid-restoration
- Diamond grit disk for rapid gross removal — unique to Jiffy Spin

**Jiffy Original Composite System
The Everyday Composite Workhorse**

- Cups, points, disks & brushes — complete system in one
- Specially formulated grit for an exquisite finish on any composite
- Trusted daily for direct restorations

**Jiffy Natural Composite System
The Esthetic Finish Patients Notice**

- Malleable spiral wheels conform naturally to all tooth surfaces
- Twirl polishers reach occlusal anatomy other systems miss
- Natural gloss that mimics enamel — patients see the difference

**Jiffy Natural Universal Ceramic System
Beautifully natural.
Exceptional polishing.**

- Pliable finger-like extensions reach where cups and points can't
- Conforms to tooth anatomy naturally — no awkward angles
- Designed for ceramic surfaces with a natural esthetic result

**Jiffy Universal Ceramic System
Unmatched Polishing For All Ceramics**

- One system for porcelain, lithium disilicate & zirconia
- All adjusters and polishers fully interchangeable
- Works on high-strength ceramics where others fall short

ULTRA-ETCH™

Etch With Precision. Remove with Confidence

- Distinctive blue color - see exactly where you've etched
- Ideal viscosity - stays put on vertical surfaces
- Self-limiting chemistry - no risk of over-etching

**Applicable to IndiSpense™ Refill OR Kit ONLY*

Dr. Clarence Tam

Auckland, New Zealand

"For a procedure as fine-tuned and finicky as adhesive bonding, Ultra-Etch offers me unparalleled control in an easy-to-extrude, non-drip yet easy to disperse formula that allows precise placement and coating of the substrate whether you are working with a total etch or selective etch technique. It is the benchmark phosphoric etch on the market."

SCIENCE BEHIND IT

Proven 1.9 µm etch depth - shallow enough to prevent over-etching and deep enough for optimal resin impregnation

PEAK™

UNIVERSAL ADHESIVE SYSTEM

The Gold Standard In Adhesive Dentistry

- Highest bond strength on both dentin and enamel
- Bonds to porcelain, metal, composite, and zirconia
- Self-etch or total etch - one bottle does both

**Applicable to Peak™ 4ML Bottle ONLY*

Dr. Lorenzo Breschi - Italy

"I have tested **Peak Universal Bond [adhesive]** against different competitors and I believe it is an excellent bonding agent, combining clinical simplicity and efficacy."

Dr. Newton Fahl - Brazil

"**Peak [Universal Bond adhesive]** is an adhesive that is extremely simple to use and allows me to predictably and reliably perform my work with composite resins."
